MarineProcure

Cloud based procurement software and expert outsourcing resources

MARINEPROCURE SOFTWARE

Our unique approach to maritime procurement

We offer procurement outsourcing services to maritime companies ranging from admin staff to help ease the burden of time consuming tasks, to professional procurement managers who can provide comprehensive reporting on financial, supplier and compliance performance.

We support maritime procurement managers through outsourced procurement services. All our resources are fully trained in procurement processes and are able to use both MarineProcure software or can quickly train up to use your existing in-house system.

Customisable procurement software, fully adaptable to your office and vessel workflow

The easy to use web-based software can be tailored to your precise workflow needs, with KPIs, custom reports and proactive alerts from intuitive data dashboards for comprehensive procurement decision making, ensuring cost-effective inventory control and procurement.

The platform covers the entire procurement process from on-board requisitions through to supplier quote and performance comparisons, approvals, purchase orders, invoicing, and payments.

Easy installation, full training and upgrades are included in your subscription.

Customisable and fully adaptable to your office and vessel workflow

The unique features include:

➡ Comprehensive reports & analytics
➡ Supplier request management
➡ User-friendly
➡ Advanced quotation comparison
➡ Approvals
➡ Follow order status
➡ Budgeting
➡ Cloud-based
➡ Create direct POs, Non PO and Profoma invoices
